

Chao Phrya Chest

Preis 299.- Euro

Absolutely stunning in appearance! Each chest made from Burl wood which has a really attractive & unpredictable grain pattern with yellow-brown to dark golden brown color. This type of wood displays an artistically smooth and exotic grain that is unique to this distinctive wood.

The performer shows a coin and has it marked for later identification. He then takes the coin and causes it to vanish. The performer now directs attention to an ornate chest which is seen in full view before the show even begins. The chest is then opened and seen to be filled with coffee beans, protruding from the coffee beans is a ribbon. The spectator is asked to slowly pull the ribbon. Attached to the other end of the ribbon is a metal clip with the same marked coin securely between its jaws!

At the end, the coffee beans can be poured out of the chest and the chest is then shown to be absolutely no holes or slots anywhere!

The coin can be borrowed and marked by the spectator! The chest is in full view before the coin vanishes! The coin found in the chest is the very same, marked coin! This handsome chest measures 12cms wide x 11cms high x 9cms deep. It is an instant performable collector 痴 piece of magic!

Finished in the finest possible coating with hand polishing and sanding in between.

Copentro deluxe (Original von Bob Kline)

Preis 249.- Euro

Supplied complete with: Two Glasses Turned Wood Gimmicked Base

Hardwood Coin Vanishing Stand

Din Daeng Die Vision

Preis 149.- Euro

This is basically Color Vision outdone. What sets this apart from all others (besides the meticulous craftsmanship) is that it is a radically different method for divining a chosen number on a die. The intricate detailed woodworking on this piece is truly outstanding. A lot of effort went into putting this together...

The die is removed from a beautiful wooden box and both die and box are examined thoroughly by the spectator. The performer then turns his back and the spectator secretly places the die with his favorite number on top into the box and locks it closed. The performer now turns around and holds the box in full view.

Without asking a single question, the performer immediately announced the selected number while the box is still locked! The box and die can then be immediately handed to the spectator to examine completely and the effect can be repeated over and over again without fear of detection.

Din Daeng Die Vision is made entirely of teak and completely hand-crafted with brass accents.

The box is the perfect size, 2" cubed, for easy carrying to do table hopping and walk around.
